

2009 State Annuitant Contribution Formula

Health Benefits Committee

June 18, 2008

100/90 State Annuitant Contribution

- Determine employer contribution to health care premiums for state annuitants and their dependents for the Basic and Medicare plans.
- Based on a weighted average premium for the four largest plans, the state pays 100% of the weighted average for the annuitant.
- For dependents, the state pays 90% of the difference between the two-party or family weighted average and the single party weighted average premium.
